

Senior Environmental & Scientific Officer

£28485 - £30785 for average 37 hours per week

This is a unique opportunity to play a key role in inshore marine conservation and management within the North Eastern IFCA area. You will be responsible for leading and developing the Authority's marine research and survey programmes. Day to day duties will involve managing a small team of officers, actively supporting survey work in the field, both onshore and offshore, designing surveys, collating and analysing data, producing reports and playing an active role within the Authority's Senior Operational Management Team. You would also be expected to attain warranted status and support fisheries enforcement work throughout the Authority's district. You should have a degree or post graduate qualification in a marine discipline and be able to evidence active work experience within an equivalent field.

Hours: annual contractual hours averaged at 37 per week.

Local Government and North Eastern Inshore Fisheries and Conservation Authority terms of appointment and conditions of service apply.

Patrol Vessel Crewman/IFCO

£23453 - £25720 + 7.5% allowance for unsociable hours for average 42 hours per week

Working under the direction of the Skipper and Mate and liaising with the land-based teams, you will form an essential part of the crew supporting the safe operation of the Authority's main fisheries vessel North Eastern Guardian III based in Whitby, North Yorkshire. Attaining warranted status day to day responsibilities will involve boarding and inspecting fishing vessels and fishing gear at sea and supporting some of the Authority's field survey work throughout the district.

Hours: annual contractual hours averaged at 42 per week.

Local Government and North Eastern Inshore Fisheries and Conservation Authority terms of appointment and conditions of service apply.

Land-based IFCO

£20661 - £22658 for average 37 hours per week

Working under the direction of the Senior IFCO you will form an essential part of the Authority's land-based team, actively supporting the enforcement of fisheries regulations across the Authority's district. Attaining warranted status, day to day responsibilities will involve inspecting vessels in ports and at sea, premises and business involved in the fishing industry and supporting some of the Authority's field survey work both onshore and offshore throughout the district.

Hours: annual contractual hours averaged at 37 per week.

Local Government and North Eastern Inshore Fisheries and Conservation Authority terms of appointment and conditions of service apply.
